

CERTIFICATE

Number: 2175877

The management system of the organization(s) and locations mentioned on the addendum belonging to:

ATTERO B.V.

Vamweg 7
9418 TM Wijster
Netherlands

including the implementation meets the requirements of the standard:

ISO 45001:2018

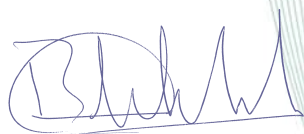

Scope:

Processing of combustible waste, organic waste, industrial waste and mineral waste.
Recovery and recycling of raw products from waste. Production of (sustainable) energy and green gas.
Post-separation of plastic packaging. Production and delivery of compost, (bio) fuels, building materials,
bottom ash and sorted plastic fractions which are processed for the plastic industry. The operational
management of pre- and aftercare of closed landfill locations.

Certificate expiry date: 1 February 2027
Certificate effective date: 18 June 2025
Certified since*: 1 February 2012

This certificate is valid for the organization(s) and/or locations mentioned on the addendum.

DEKRA Certification B.V.

ADDENDUM

To certificate: 2175877

The management system of the organization(s) and/or location(s) of:

ATTERO B.V.

Vamweg 7
9418 TM Wijster
Netherlands

Certified organization(s) and/or locations:

Different scope

ATTERO B.V.
Oude Apeldoornseweg 40
7333 NR Apeldoorn
Netherlands

Management and administration of activities carried out at the various work locations.

ATTERO B.V.
Moervaart 25
4622 RR Bergen Op Zoom
Netherlands

Managing this non-operational landfill. Producing electricity from landfill gas. Treating wastewater in its own wastewater treatment plant.

ATTERO B.V.
Energistraat 22
5753 RN Deurne
Netherlands

The acceptance and composting of organic domestic waste (fruit and vegetables) and comparable organic industrial waste. The production of soil improving products and biomass.

ATTERO B.V.
Europaweg-Noord 179
6374 CH Landgraaf
Netherlands

Receiving, transferring green waste, household waste and similar industrial waste and dumping non-flammable industrial waste. Cleaning of soil. Producing cleaned sand of class industrial or cleaner, from contaminated soil. Storage and transfer of soil (soil bank). Managing this operational landfill site. Treating wastewater at the treatment plant.

ATTERO B.V.
Fregatweg 30
6222 NZ Maastricht
Netherlands

Receiving, transferring household waste and comparable industrial waste. Receiving GFT and green waste and composting these streams to produce soil improvers and biomass from them. The Maastricht location is also an office location.

ADDENDUM

To certificate: 2175877

The management system of the organization(s) and/or location(s) of:

ATTERO B.V.

Vamweg 7
9418 TM Wijster
Netherlands

B.V. Afvalverbranding Zuid-Nederland
(AZN)
Middenweg 34
4782 PM Moerdijk
Netherlands

ATTERO B.V.
Middenweg 32

Netherlands

ATTERO B.V.
Vloeveldweg 9
5048 TD Tilburg
Netherlands

The acceptance and processing of domestic waste and comparable industrial waste. Production of (sustainable) energy. Recovery of raw products from waste.

Receiving and composting household organic waste (GFT) and comparable organic industrial waste and producing soil improvers and biomass.

Receiving, transferring, processing and/or buffering green waste, household residual waste and comparable industrial waste. Cleaning soil and debris. Managing this non-operational landfill. Producing electricity from landfill gas. Operation of Montfort Environmental Park. The Montfort site is also an office location.

The biomass power plant produces sustainable energy from the green waste of five surrounding municipalities. The energy in the form of steam goes via a pipeline to a nearby potato processor.

Receiving, transferring, buffering, dumping household waste and comparable industrial waste. Receiving and composting organic household waste (GFT) and comparable organic industrial waste and producing soil improvers, biomass and green gas. Upgrading biogas to natural gas quality. Managing an operational landfill and C3 compartment. Treating wastewater in an on-site treatment plant. Cleaning soil. Producing cleaned sand of class industrial or cleaner, from contaminated soil. Storage and transfer of soil (soil bank). The Tilburg site is also an office location.

ADDENDUM

To certificate: 2175877

The management system of the organization(s) and/or location(s) of:

ATTERO B.V.

Vamweg 7
9418 TM Wijster
Netherlands

ATTERO B.V.
James Cookweg 8a-10
5928 LK Venlo
Netherlands

The acceptance and transshipment of domestic waste and comparable industrial waste. Also the acceptance of organic domestic waste (fruit and vegetables) and comparable organic industrial waste, the fermentation of these streams and the production of soil improving products and biomass. Also the production of electricity and heat from the biogas produced in the fermentation plant.

ATTERO B.V.
Sluinerweg 12
7384 SC Wilp
Netherlands

Producing BSA granules. Producing cleaned sand of class industrial or cleaner, from contaminated soil. Separating material from remediation, including from former landfills. The controlled dumping of waste materials. The transfer and sorting of industrial, construction, demolition and bulky household waste. Composting and fermentation of organic waste streams.

ATTERO B.V.
Vamweg 7
9418 TM Wijster
Netherlands

Processing of combustible waste, organic waste, industrial waste and mineral waste.
Recovery and recycling of raw products from waste. Production of (sustainable) energy and green gas.
Post-separation of plastic packaging.
Production and delivery of compost, (bio) fuels, building materials, bottom ash and sorted plastic fractions which are processed for the plastic industry. The operational management of pre- and aftercare of closed landfill locations.
